

Blue Atlas Cedar

Cedrus atlantica 'Glauca'

Height: 40-60'

Width: 30-40'

Hardiness: Zone 6

Sun: Full sun

Soil: Well drained

Habit: Dense, pyramidal

Foliage: Silvery blue needles that appear to grow in clusters

Tolerance: Drought tolerant once established. A conifer that does well in heat and humidity.

Comments: A narrow pyramidal plant when young, becomes broad spreading with age. Best suited for large areas.

PLANT INFORMATION

Native to the Atlas Mountains of Morocco and Tunisia.
