

Pride's Select Corkbark Fir

Abies lasiocarpa arizonica 'Pride's Select'

Height: 8-10'

Width: 4-5'

Hardiness: Zone 4

Sun: Full sun to part shade

Soil: Well drained

Habit: Layered branching, pyramidal

Foliage: Powder blue foliage with silver buds on white branches.

Tolerance: Not well suited for high heat and humidity climates.

Comments: Ideal specimen for small garden or rock feature. This along with other cork bark varieties provide stunning contrast in any garden

PLANT INFORMATION

Selection of Subalpine fir for its layered branching and powder blue foliage.
