

Karl Fuchs Himalayan Cedar

Cedrus deodara 'Karl Fuchs'

Height: 12-15'

Width: 4-5'

Hardiness: Zone 5

Sun: Full sun

Soil: Tolerates a wide range of soil types. Will not tolerate waterlogged soils.

Habit: Dense, pyramidal.

Foliage: New growth is bright blue, becoming green as the needles mature

Tolerance: Tolerates heavier soils better than other fir varieties.

Comments: Screening, group planting or as an accent plant.

PLANT INFORMATION

A seedling selected by Horsatmann Nursery in Germany from the Paktia region in Afghanistan.
