

Dwarf Corkbark Fir

Abies lasiocarpa arizonica 'Glauca Compacta'

Height: 8-10'

Width: 4-5'

Hardiness: Zone 4

Sun: Full sun to part shade

Soil: Well drained

Habit: Dense, pyramidal

Foliage: Powder blue foliage with silver buds at each branch tip.

Tolerance: Not well suited for high heat and humidity climates.

Comments: Ideal specimen for the small space garden or rock garden.

PLANT INFORMATION

A native to North America, named for its deeply fissured and silvery white bark. This trait is masked on the Compacta form due to the dense branching.
